

My Student's Profile

Introduction

Students and their Advisor/Mentor can use this tool to explore career interests and an educational/college pathway. This activity is also a valuable tool in preparing for the college application process. The first section is designed for the advisor/mentor to have a conversation with their student on their strengths and interests. These questions can be updated annually and used for college applications, draft college essays and scholarship applications. The last section of this activity is a “fill in the blank” template that your child can use on college and scholarship applications.

Materials

- Writing utensil & printed worksheet OR computer & fillable form

Instructions

- Complete your My Child's Profile
- Ask a parent, family member, friend, or mentor to help you brainstorm your biography responses
